\*Amortized on Market Value Yield Basis

\*\*Coupon rate steps up in the future.

A-Weighted Years to Maturity is based on par value over total managed portfolio par value times the number of years investment to be held to full maturity.

B-Weighted Years To First Call is based on par value over total investment par value times the number of years for investment to be held to full maturity, or to the first call date if applicable.  
If investment is past first call date, and call feature is continuous, then calculation is to maturity.

C-Overnight Contractual Rate is provided for overnight investments (Concentration and NOW Accounts) and is a contractual rate between Collier and Fifth Third Bank.

D-Coupon Rate is taken from the respective investment trade tickets, Step Coupons are shown at their current rate.

E-Contract Rate/Coupon Weighted Return is based on par value compared to total managed portfolio par value times C or D depending upon status as overnight or long term investment.

F-Purchased Yield is taken from the respective investment trade tickets.

G-Contract Rate/Weighted Purchased Yield is par value compared to total managed portfolio par value times the result of C or F, as applicable.
